

# **USER MANUAL FOR GAME MASTER**

## **Welcome Game Master!**

You are in charge of this whole operation. I will walk through the whole process with you so you many know how to work this system.

### **Step 1:**

Please register as Game Master

Game Master is given a secret key to register with in the registration page.

**The secret key you need is: secret2**

This will make sure only you can access the game master page and no other users can.

### **Step 2:**

Please Login with your credentials.

You will be then navigated to the profile page.

### **Step 3:**

Please press the button on the profile page which says game master mode.

This will lead you to a page that allows you to make the games.

### **Step 4:**

Here you can make games by setting a game name, then the questions and answers and scores to each question and the corresponding locations.

You may have 3 to 5 questions per game.

After making a game, you can view the game by clicking view game button which shows all the games you have made in a table format. Next to each game name there's a delete button which you can click to delete the corresponding game.

### **Step 5:**

You are free to navigate through the rest of the system and also take part in the games by finding out your group which is in the profile page.
